PCB REPLACEMENT INSTRUCTIONS

Attention: Read and understand these instructions before installing fixture. This fixture is intended for installation in accordance with National Electric Code and local regulation : to assure full compliance with local code and regulations, check with your local electric inspector before installation. This equipment is guaranteed only when used as indicated in the instructions; therefore they should be kept for future reference. Install where luminaire will be protected from likely damage. This fixture is ceiling mounted only.

YOUR BOX SHOULD CONTAIN

1x LED PCB

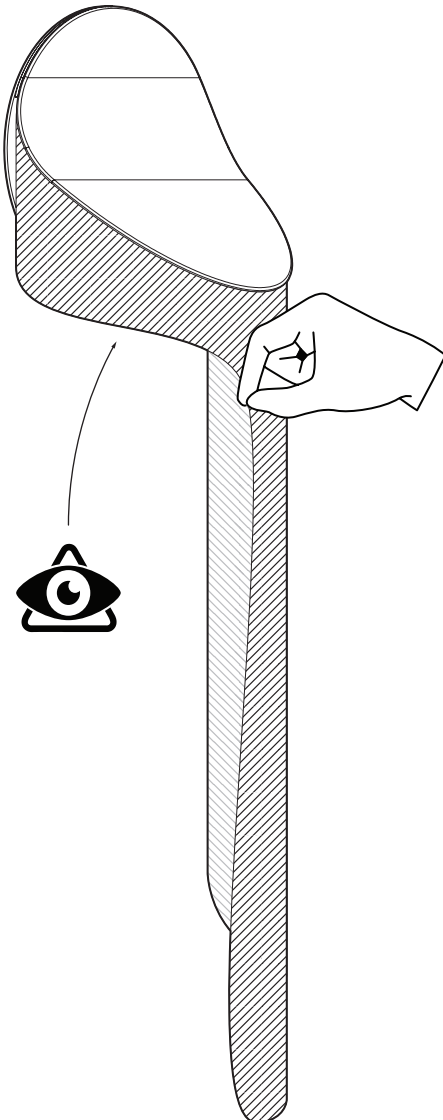

Unpack all components from the box and dispose of the packaging. Please recycle.

TOOLS NEEDED, NOT INCLUDED

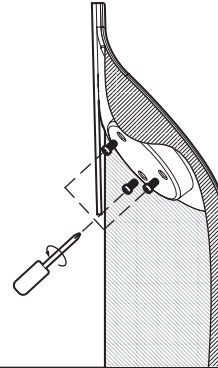

-Phillips screw driver

- 1 Remove the lamp from the wall and put it on a flat surface. Look under the fringes to find the light engine.

(Shut off main power at the circuit breaker panel)

- 2 With a Phillips screwdriver, unscrew the 3 screws holding the plastic diffuser. You can now take off the LED PCB.

- 3 Pass the wires of the PCB gently through the slot hole in the aluminum plate. Once done, screw back the plastic diffuser. **DO NOT OVERSCREW**
